

2021 True Parents' Birthday Anniversary & Foundation Day

Great Works Q&A

Q1: What is the distinction between attending in church and at home?

A1: 1) Attending in church

It is advisable for members to participate in the ancestor liberation and blessing from their church. Members who have family members who are opposed to the liberation and blessing, members who have any ailments, spiritual problems or have difficulties connecting to the live broadcast via their computers or phones are strongly encouraged to attend from the church or church facility.

A1: 2) Attending from home

- Pregnant sisters (abiding by corona regulations)
- Members who have received the Hyojeong Won or have liberated and blessed their ancestors up until 430 generations (CheonBo Families) can attend from home.
- Members that are unable to attend church because of physical difficulties or due to the pandemic situation, but that are able to connect to the live broadcast, can attend from home. (Even though a person with physical restrictions or a young child does not physically hit the body when spirits are being removed in the chanyang session, the spirits will be taken out.)

※The church leader should decide based on the current Covid-19 guidelines in each nation.

Q2: What is the difference in the special grace received when one attends from home or at a church?

A2: When members attend at church, they can participate in the chanyang and physically hit the body. (This is beneficial for members who have no physical ailments)

When members attend from home, they can only clap during the chanyang session. (This is because members may be unaware of how to physically hit the body correctly, and this can cause a problem if done incorrectly). Members who would

like to participate fully in the chanyang session are advised to attend at their church.

※Even though members participate by clapping, they can receive the same grace for the removal of spirits. Members can also hit the external parts of their bodies and, by doing so, assist healing in that area.

※Ninety percent of our ailments are caused spiritually; therefore, members who have been unable to go or attend church until now will be able to resolve these issues through participating in the removal of spirits in the chanyang session.

Q3: Other than at the church or at home, are members allowed to participate in rented facilities or somewhere outdoors, for example after their work schedule?

A3: Members are **only** allowed to participate at a church or church facility, at their home or in their dormitory. We cannot permit members to participate from a rented property or outdoors.

Q4: What should members do who would like to attend but are either in a nursing home or, due to their work schedule, are unable to attend do?

A4: For members who are unable to attend, their church leaders can attend the Ancestor Liberation and Blessing Ceremonies on their behalf. For members who will be participating physically, they cannot be registered as special grace by proxy. Only those who are unable to attend can register their ancestor liberation, Blessing and collateral liberations by proxy as a special grace.

Q5: Is there separate grace for each home?

A5: There is no difference in the special grace received during the Great Works. However, for homes that have the Hyojeong Won, during the ancestor liberation and Blessing, members in the home may feel a change in the atmosphere as the possibility of evil or resentful spirits causing disturbances cannot be ruled out.

Q6: What preparations are needed for the Great Works?

A6: Members are encouraged to offer the Hyojeong Offering Paper beforehand. Those attending from home should offer their Hyojeong Offering Papers in

advance before attending the Great Works.

Q7: What attire should be worn during the Ancestor Liberation and Blessing Ceremonies?

A7: During the Ancestor Liberation chanyang session, members are to wear white t-shirts. For the Ancestor Blessing Ceremony, members are advised to prepare the same way as they would when attending at the HJ Heaven and Earth CheonBo Training Center (Holy Robe, Blessing ring). Members who will be attending from home should also prepare the same attire.

※ During the ancestor blessing ceremony, when members attend in clothing other than Holy Robes, their ancestors can feel left out.

Q8: Will attending these events in the future be the same as this time?

A8: Annually we have 4 Great Works, and only during these occasions do we have the special spiritual grace.

Q9: Can non-members attend? For example, if a member attends from home and they have a family member who isn't a church member, can this person attend?

A9: Whether members are attending from church or home, non-members are not allowed to participate.

Q10: For members who will be attending from home, is there any advice or something to prepare?

A10: For members who will be participating from home, follow the local Covid-19 regulations and guidelines given by the church, and observe soundproofing measures. Prepare True Parents' official portrait and participate in the room where the Hyojeong Won is located.

※ Homes that do not have the Hyojeong Won are encouraged to offer the Hyojeong Offering Paper before participating in the Great Works.

Q11: During the Great Works at the HJ Heaven and Earth Training Center, I heard that absolute good spirits are totally mobilized, in this case, as the number of participating locations increases will the grace of the cooperation of absolute good spirits be dispersed? In addition, the Great Works will be held on 2 days, is

the special grace different each day? On the 2nd day, the event will only be held for Japanese members which means that there will be fewer participants. Does this mean that the special grace on this day will be greater?

A11: The absolute good spirits are totally mobilized during the chanyang session. Currently the number of absolute good spirits is greater than before and, as a result, during the Great Works members receive immense grace; however, the grace received on either day is the same.

Q12: During the Ancestor Liberation and Blessing Ceremony, if the video stops or the live broadcast is disconnected, will the ancestor liberation and Blessing still take place?

A12: Yes, the Ancestor Liberation and Blessing will be accomplished. However, with regard to the removal of spirits during the chanyang session, members may not receive that grace if they are unable able to view the video and participate.
